

Corà

Timber Industries

OUR TIMBER. YOUR WORLD.

Rooted in quality and trust.
Crowned in client service and expertise.

Our management team collectively holds more than 90 years of experience in the timber and wood industry. Professionalism, competence and experience are part of our business heritage, and run through the DNA of Corà Timber Industries.

As an organization, our recurrent theme is profound respect for and return to fundamentals - this leitmotif naturally leads us to the historic activity of woodworking, the timber industry and the most precious of raw materials - European hardwood.

Corà Timber Industries is a company which places people and relationships at the very center of its corporate culture and operations. Dedication and professionalism are our hallmarks, which we offer in the course of service to our clients.

Four companies, one identity and a singular philosophy. An international footprint which has developed over time, with a precise set of objectives: offer service and a range of products, and function as world citizens, prepared to assist our clients when they need us.

Corà Timber Industries retains 100% ownership of its subsidiaries Lipa and Mico. This hierarchical structure represents a competitive advantage, and demonstrates a mindset and methodology of industry typically Italian: values of the parent entity, fused into and delegated to the respective subsidiary entities, which operating independently, embody and express the values of professionalism, reliability and dynamic flexibility.

OUR VALUES

Awareness, safety, team work, support.

Attention to environmental concerns, expert knowledge of production processes, systemic logistics capable of direct access to any market in the world and a commercial and sales network which offers consultation, support and assistance to our partners and clients. Four milestones which represent the fruit of acquired experience and which make the name Corà Timber Industries synonymous with professionalism, quality and confidence.

The mission of Corà Timber Industries includes four important components:

- Safeguarding forestry resources, respecting norms and regulations, supporting harvesters and processors who abide by the law, and promoting products which are Forestry Stewardship Council (FSC) certified;
- Offering to our international clientele a selection of reliable, quality products, together with high value added services;
- Valuing credibility and professionalism as part of our company's legacy and as part of the character of each of our collaborators;
- Functioning as a true partner to our clients in a rapidly evolving and changing global marketplace.

Lipa sawmill (Omarska, Bosnia)

Mico sawmill (Miercurea Sibiului, Romania)

THE GROUP

Expert companies dedicated to providing timber industry products and services.

Corà Timber Industries was founded 30 October 2015, and carries forward the legacy of its predecessor, Corà Domenico & Figli, preserving a bond of closeness with clients and striving to understanding their needs.

The Corà Group of companies has two sawmills as its driving force - Lipa and Mico - both with longstanding operations in their respective territories. In 2015/2016, two subsidiary commercial trading companies - Corà Hardwood Company, located in Zagreb, Croatia, and Corà Timber Transilvania, located in Siret, Romania, were added to the Group.

Four companies, operating under one parent entity, sharing one identity and pursuing a singular, common mission and philosophy.

OUR BRANDS

Italy based management, international production and the best European hardwood.

80

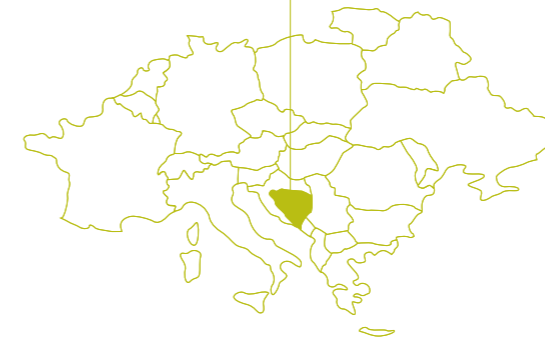

Corà
Timber Industries

Our logo is offered as a symbol and recognized throughout the world as a direct conceptual link to the timber and forestry industries. Green spaces, forests, trees, and leaves are all images which immediately transport us, to the unconfined natural places where the long process of woodworking begins. These natural environments are blended into our logo's graphic design, symbolized by two leaves, which also represent Lipa and Mico - the two historic sawmills and lumber production companies which together form the beating heart of the Corà Group of companies.

Lipa

Corà Timber industries

Lipa was formed in 2000 in Omarska, Bosnia, at a time when the regions of Bosnia and Herzegovina were still subject to the multinational peacekeeping efforts of the NATO-led Stabilization Force (SFOR).

Beech lumber from Banja Luka, Bosnia is prized throughout the world for its clear consistent color - lacking in any "red heart" or center - and for its particularly stable fiber.

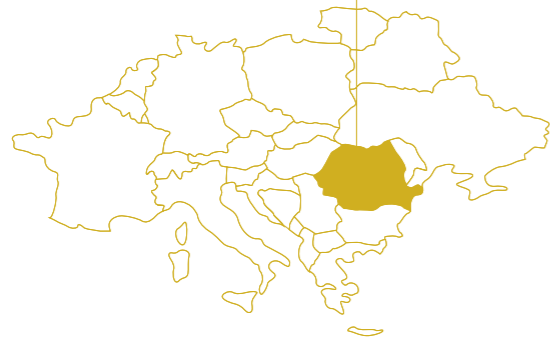

High quality Slavonian oak is also in strong supply, coming from the nearby Balkans region. Suppliers are chosen in accordance with rigid criteria regarding their reliability and trustworthiness - guaranteeing the highest level of conformity with industry regulations, and in furtherance of Lipa's commitment to sustainable forestry.

Respect and care for the environment, the responsibility of processing raw materials in accordance with quality standards, and knowledge obtained through years of experience are the elements which enable Lipa to compete and thrive in the internal and external markets

Mico

Corà Timber industries

Mico was formed in 2001 and operates in Miercurea Sibiului near Sibiu, Romania in area of the Carpathian mountains - a renowned source of beech, ash and lime timber.

Mico is primarily dedicated to the acquisition of raw materials selected from providers who operate in conformity with the regulations and laws regarding harvesting and sustaining forests and woodlands. Mico has a singular constant objective: to become the premier Romanian source for high quality processed timber.

The reliable, continuous supply of timber, full control of the production cycle - from forest to sawn lumber, and the process of constant selection and monitoring to guarantee the highest quality finished product, are aspects of our operation which all share a common final aim: client satisfaction.

Mico received the first prize from the *Chamber of Commerce, Industry and Agriculture di Sibiu*, in the category *Small and Medium Businesses in the Wood Industry*; in the last five years, the company has also received two *Certificates of Honor* and one *Certificate of Excellence* for its economic performance.

OUR TRADING COMPANIES

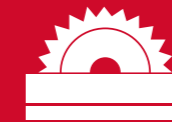

European supply, global distribution.

Corà
Timber Industries

Corà Timber Industries Spa, based in Vicenza, Italy, founded in 2015, heads the Corà group of companies - four subsidiaries with a single shared objective - to span the global timber industry and marketplace.

Led by Domenico Corà, who together with the management team collectively hold more than 90 years of timber industry experience, the Corà Group of companies is focused on processing, trading and distribution of European hardwoods.

Lipa

Mico

Thriving dynamic markets in continual evolution. We're already there. Founded in 2000 and located in Omarska (Bosnia), Lipa is an FSC certified production sawmill, focused on production of oak and beech unedged and square edged boards.

Anticipating the future of forestry, and meeting its challenges, today. Incontinuous operation since 2001, Mico is a production mill located close to the Carpathian mountain range near Sibiu (Romania), focused on beech lumber production.

Hardwood

Transilvania

Corà Hardwood is a trading company located in Zagreb (Croatia), which specializes in the sale and distribution of oak and beech lumber.

Corà Timber Transilvania is a trading company located in Siret (Romania), specializing in the sale and distribution of ash and basswood lumber.

THE PRODUCTS

European hardwood, serving international demand.

Lipa

Corà Timber industries

Since ancient times, the tree has represented a symbol and expression of life, balance and wisdom.
(Jean Giono Francia, author, 1895 - 1970)

Mico

Corà Timber industries

A falling tree makes more noise than a growing forest.

(Lao Tse, China 604- 470 A.D.)

OUR MARKETS

Italian management, world service.

The Cora Group of companies has operations and affiliates all over the Eastern Hemisphere. We are constantly searching for new resources and markets, as our planned expansion continues.

Corà Timber Industries establishes commercial operations in each area or territory on the basis of its local human resources, their relative knowledge, the diversity provided by the addition of the market, and the potential importance of the market's various regions. Operations are established through one of the following models:

- Full in-country office
- In country partnership with a brokerage agency based in the territory
- By contract with local sales agent
